

Medical Centre Website

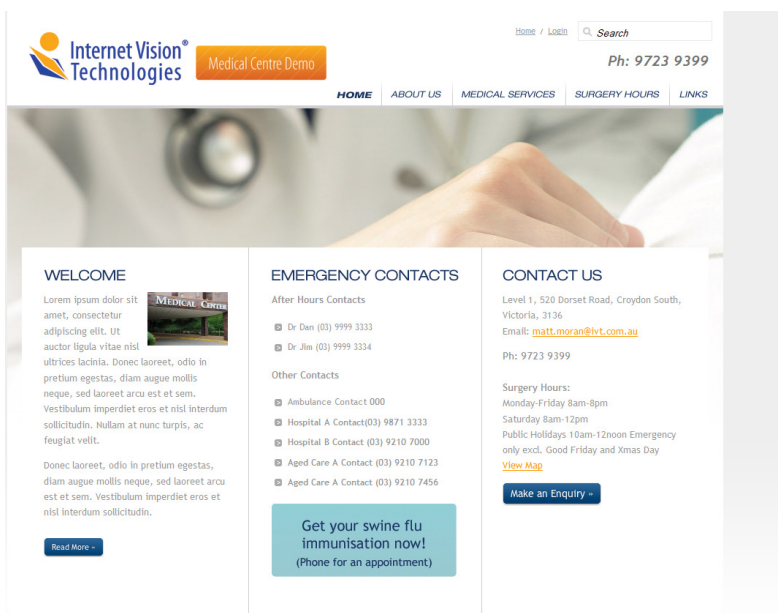

Product

DS0142 January 2010

A purpose built Medical Centre Website providing a professional 'web presence' that reflects the uniqueness of your practice to patients, suppliers and staff.

The site contents can be simply changed, by you, through a web administration area. Sites can be fully operational in 2-3 days.

Visit <http://mymedicalcentre.ivt.com.au> for a working demonstration of how this can look.

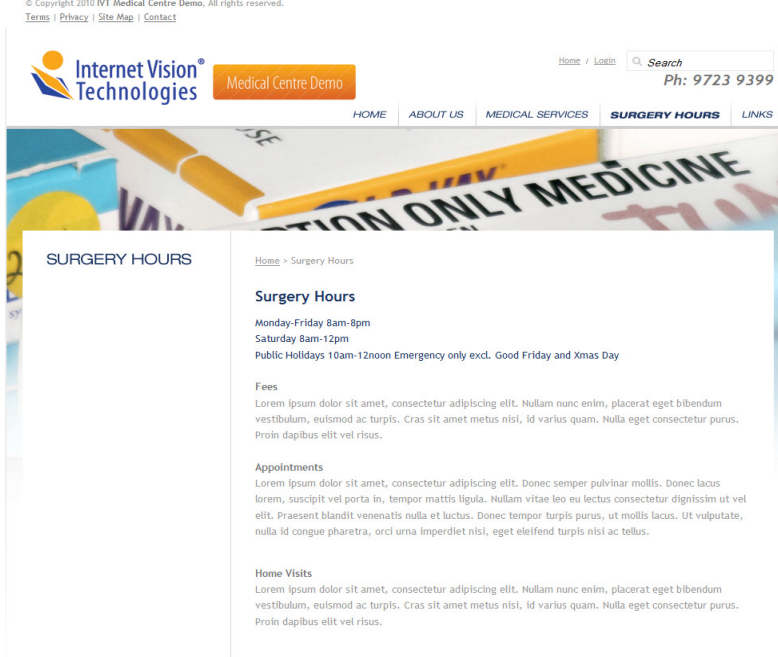

The screenshot shows the home page of the Medical Centre Website. It features a navigation bar with links for HOME, ABOUT US, MEDICAL SERVICES, SURGERY HOURS, and LINKS. The main content area is divided into three columns: WELCOME, EMERGENCY CONTACTS, and CONTACT US. The WELCOME section includes a photo banner and a 'Read More' button. The EMERGENCY CONTACTS section lists 'After Hours Contacts' and 'Other Contacts'. The CONTACT US section provides the address, phone number, and surgery hours, along with a 'Make an Enquiry' button.

Home Page:

The Medical Centre site features a photo banner that cycles through images each time the page is reloaded. These images are pre-loaded into the site for your convenience, and can be added to or changed at any time.

The default home page contains 'Welcome', 'Emergency Contacts' and 'Contact Us' information panels. It also has a navigation bar that is consistent throughout the website.

The screenshot shows the 'Surgery Hours' page of the Medical Centre Website. It features a navigation bar with links for HOME, ABOUT US, MEDICAL SERVICES, SURGERY HOURS, and LINKS. The main content area is divided into two columns: SURGERY HOURS and FEES. The SURGERY HOURS section includes a photo banner and a 'Surgery Hours' section with a 'Make an Enquiry' button. The FEES section includes a 'Fees' section with a 'Make an Enquiry' button.

Inner Pages:

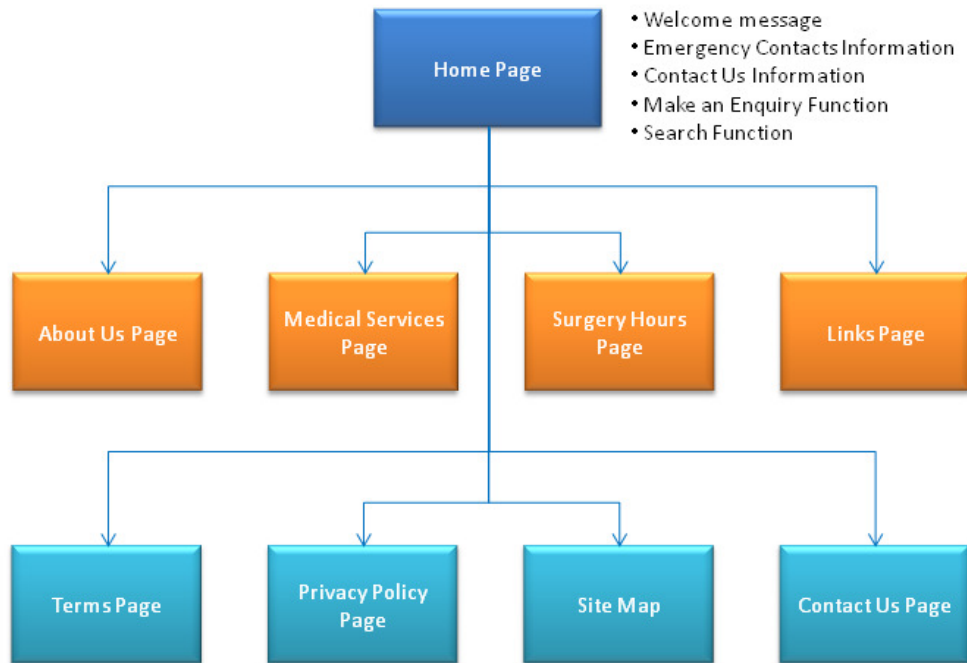

Each inner page can be used to display text and images.

Content can be changed through a simple to use editor similar to a word processor.

Navigation menus are automatically created as more pages are added to the site.

An image banner is also featured on each inner page.

The default site contains 'Medical Services' and 'Operating Hours' pages that can be quickly and easily updated at any time.

Simple Content Management

No coding or understanding of HTML is required. Using a simple word processing like editor you can add/edit/delete pages, text, images and include Word, PDF, Powerpoint and URL links.

More than just a website, the Medical Centre Web Application includes a contact database system, email and newsletter capabilities and much more.

Contact Neil Evenden on 9723 9399 to discuss the possibilities for your practice or to arrange an appointment.
